# **Local Advice Service**

**A fortnightly service for residents  
of **Whitehouse** and **Fairfields** Community Councils**

# About the service

Whitehouse and Fairfields Community Councils are pleased to be working in partnership with Citizens Advice Milton Keynes, to provide regular advice sessions for their residents.

Citizens Advice Milton Keynes is a local charity that supports thousands of people in the area, every year, with a range of money, legal and personal problems. Our network of community advice surgeries across the city, is generously supported by some of MK's community and parish councils, who fund us to provide advisers that support local people.

We can help you to find a way forward with a range of issues and problems. Our advice is **free, confidential and impartial**. We are a local independent charity, not a government agency.

Sessions are held **every 2 weeks** and alternate between the local venues below.
