1 PURPOSE

Fairfields Community Council (FCC) is required to maintain adequate financial reserves to meet the needs of the organisation. The purpose of this policy is to set out how the Council will determine and review the level of reserves.

Section 50 of the Local Government Finance Act 1992 requires local councils to have regard to the level of reserves needed for meeting estimated future expenditure when calculating the budget requirement. However, there is no specified minimum level of reserves that an authority should hold.

FCC will review their reserve policy as part of the review of Financial Regulations (section 15) and report to council as part of the budget setting process.

2 TYPES OF RESERVES

Reserves are categorised as General, Earmarked and Ring-fenced; these are defined as follows:

GENERAL RESERVES

FCC maintains a general reserve appropriate with the value of the annual budget and is held to support the ongoing financial viability of the Community Council in discharging its responsibilities and commitments.

The general reserves are to mitigate the impact of unexpected events and emergencies and interruption to forecast revenue or costs efficiencies, which may mean a contribution is required to fully fund the annual budget.

Setting the level of general reserves is one of several related decisions in setting the annual budget. FCC must build and maintain sufficient general reserves to cover the key risks it faces, as expressed in its financial risk assessment.

As guidance, the level of general reserves should, in principle, be no lower than 4-months of the total Operating Expenditure.

2.1 EARMARKED RESERVES

Earmarked Reserves are by definition held for specific purposes and for savings for future projects, including the following:

- (a) Maintenance – to enable council to plan and finance an effective programme of equipment replacement and planned property maintenance. An Earmarked Reserve is a mechanism to even out expenditure over time without the need to significantly vary budgets on an ad hoc basis.
- (b) Future services – to build up reserves for investment in identified services the Community Council believes will have to be provided in future financial years, e.g. the devolution of services to the Community Council from the Borough Council.
- (c) Carry forward of underspend – whilst the Community Council commits expenditure to projects, the timing may go beyond a given financial year. Earmarked Reserves are used as a mechanism to carry forward these financial resources.
- (d) Insurance - to meet the estimate of future claims to enable the Community Council to meet the excesses not covered by insurance.
- (e) Litigation - to meet the estimate of potential future legal advice and proceedings.
- (f) Other Earmarked Reserves may be set up from time to time to meet known or predicted liabilities or specific projects.

Any decision to set up an Earmarked Reserve must be made by the Community Council and will require the following to be identified:

- (a) the reason for/purpose of the reserve;
- (b) how and when the reserve can be used;
- (c) a process and timescales for review of the reserve to ensure continuing relevance and adequacy.

At any time, the Community Council can decide to release funds from earmarked reserves if the purpose for which those funds were earmarked, is no longer a justifiable use of these funds or there is a greater priority. This can include, should the situation arise, needing to cover a shortfall in General Reserves, in the short term.

2.2 RING-FENCED RESERVES

Ring-fenced reserves are those that the Community Council are committed to maintain to fund specific building, land or activities that result from a contract or covenant that the Community Council is bound by, for example the transfer of a building as a community asset which the Community Council; must maintain.

The amount of a ring-fenced reserve is usually agreed at the time that the covenant or contract is entered into.

The ring-fenced reserve can only be spent on the building, land or activity that it is meant for.

3 **SETTING & MANAGING FINANCIAL RESERVES**

The level of financial reserves held by the Community Council will be agreed by Full Council during the discussions held to set the budget for the next and future financial years.

Reviewing the Council's Financial Risk Assessment is part of the budgeting and year end accounting procedures and identifies planned and unplanned expenditure items and thereby indicates an appropriate level of Reserves.

The Responsible Financial Officer will allocate General and Earmarked Reserves as agreed by the Community Council and report against them on a monthly basis.

The management of reserves is ultimately governed by the Community Council's Financial Regulations Policy.

GENERAL RESERVES (4-months operating costs)	£32,435
EARMARKED RESERVES (Allotment Deposits)	£3,500
EARMARKED RESERVES (Community Centre)	£50,000
EARMARKED RESERVES (Maintenance of Assets)	
RING-FENCED RESERVES (To be set when Community Centre is transferred from MKCC)
